

National Banger Kit suppliers

The National Banger Committee has been inspecting parts made for use in National Banger racing, including H frames, engine mounts and various engine guards to check that these products are made to the rules in the 2021 National Banger rules issued by the ORCi. The following have submitted their products for inspection, and these have been approved for use as being made to the current regulations

Ben Sealey

Joey Holmes

Phil Lambley

Alec Jenner

Ash Riley

Stu Kearsley

Ash Law

Ben Mynott

James Ellis

The inspection of these products does not in any way give approval to the suppliers with regard to product liability, warranty, or quality control. Customers must satisfy themselves as to these aspects of their purchases, as there is no liability to the ORCi or any of its officials in this regard.

The National Banger Committee will continue to monitor new products as cars evolve, and will publish findings as and when these come to market. Meanwhile, drivers may use products from these suppliers in the knowledge that they will pass scrutineering at any ORCi track.

Suppliers are reminded to submit any new parts for inspection before approval for use is given.

Any supplier wishing to join the list should contact the Secretary ORCi secretary@orci.co.uk

National Banger Committee-Graham Bunter (Chairman), Rob Mills, Paul May, Paul Adams, Tony Fidoe, Steve Bugler, Chris Jacklin, Phil Morris, Andy Tidmarsh, Martin Lightbown.
