## **V8 STOCK CAR HEALTH & SAFETY NOTICE & INFORMATION SHEET**

19 April 2025

Dear V8 Stock Car Driver

It is great to be able to welcome you back to King's Lynn for today's V8 Stock Car meeting and many thanks for your support.

We would like to take the opportunity to remind you of some of our important Rules of Racing.

### **Start of Races – NEW PLACE FOR GREEN TYRE AND STARTING RACES**

**PLEASE NOTE THAT THERE ARE GREEN TYRES BETWEEN TURN 3 AND TURN 4. THE LEAD WHITE TOPS START AT THE FIRST GREEN TYRE. IN A RESTART THE LEAD DRIVER STARTS AT ANY POINT IN BETWEEN THE TWO GREEN TYRES. DRIVERS STARTING BEFORE REACHING THE FIRST GREEN TYRE WILL BE DOCKED PLACES. IT IS IMPORTANT THAT ALL DRIVERS FROM ALL GRADES GO AT A STEADY ROLLING PACE UNTIL THE RACE STARTS. ANY DRIVER WHO STARTS RACING BEFORE THIS WILL BE DOCKED OR EXCLUDED FROM THE RACE. YOU HAVE ALL BEEN WARNED. THE LEAD WHITE TOP MUST SET A STEADY PACE AND THE POLE SITTER IN EACH GRADE IS RESPONSIBLE FOR MAINTAINING THE GAP BETWEEN GRADES. YOU MAY START RACING WHEN THE GREEN FLAG IS WAVED AND GREEN LIGHTS SHOW AND YOU ARE TOLD OVER YOUR RACEIVER.**

**Deliberate riding of the wall to gain an advantage can be penalised**

**IN THE EVENT OF A STOPPAGE AND MID RACE WATERING DRIVERS IT WILL BE ANNOUNCED HOW MANY LAPS WILL BE DONE UNDER YELLOWS OVER THE RACEIVERS**

No driver must exit their car on the infield or on track unless there is a major problem – IE Fire. If you go on the infield you must remain in your car with belts and helmet on for the duration of the race and this also applies if you are tractored onto the centre following an incident you must also remain in your car unless you need to exit for medical attention.

No attacking cars on the Concrete Safety Area. All of the concrete area is designated as a safety area.

No Driving at a speed above walking pace on the Concrete Safety Area.

If you enter the concrete area inside the ring of tyres you should stop immediately and under no circumstances exceed walking pace.

**UNDER NO CIRCUMSTANCES MAY MECHANICS AND TOOLS GO ON TRACK AND CARS BE WORKED ON THE CIRCUIT.**

Under no circumstances can any alcohol be brought into the stadium. This is a stipulation under the stadium's licence and anyone found doing this will be ejected from the premises and if they are part of a racing team that driver will not be allowed to race and will be reported to the ORCi.

**PLEASE NOTE THAT IN THE EVENT OF A CAUTION SHOULD THE TRACK REQUIRE WATER IT WILL BE WATERED!**

The format for the meeting is below

11. Unlimited Banger East Anglian Championship
12. F1 Stock Car Grand National
13. Unlimited Banger Allcomers and Destruction Derby

**Pit Safety**

Please note there is no smoking in the pits

There is a strict walking pace speed limit in the pits

When working under your car you must make sure it is supported by either a proper axle stand or with some wheels and not just left on a jack so if the car slips off the jack there is something to stop it causing a serious injury to whoever is underneath it. If a Hiab is used ensure part of the car is over the flatbed area of the lorry.

All fuel must be kept in sealed containers.

- In the pit area the speed limit shall not exceed walking pace at all times! Drivers and mechanics are reminded they must not encourage members of the public (especially children) into the pit area. Members of the public are not permitted to gain entry to any racing venue via the pit gate entrance under any circumstances.
- When drivers are working on their car in the pits they should be aware at all times that members of the public may be in the pit area, as well as other competitors, mechanics and members of their families. The driver should make sure that a member of their crew is responsible for ensuring no-one is placed in danger by their work. Members of the public should be at least 2 metres away when carrying out any mechanical work.

- Normal Health and Safety rules apply within the Pit area. This particularly applies when mechanical equipment is being used like hiabs, stihl saws and welding equipment. Drivers must ensure that the people who are operating this equipment are fully qualified to do so and have the appropriate personal protective equipment such as goggles and footwear. The actions of the drivers crew remain their responsibility throughout the raceday.
- Fuel should be stored in approved containers and well away from public areas. When re-fueling a vehicle, a second person must be present with a fire extinguisher. Extra care should be taken if the engine is still hot. Members of the public should be at least 2 metres back when re-fueling.
- It is an ORCi rule in all formulas that a fully operational Fire Extinguisher is kept with all tow vehicles and its position is known to all your pit crew.
- When driving any vehicle in the pits you must always obey the 5 mph limit.
- Children must be accompanied by an adult at all times.

Drivers should not have Smart-devices on their person during racing. Some have technology built into them, which could trigger responses from Emergency Services on impact.

#### **Wheels and Tyres**

Please ensure you take all your rubbish with you including wheels and tyres. Any driver leaving wheels and tyres in the pits will be subject to an ORC ban.

**Please note that if your car needs recovering after a race you must wait inside your car and not get out of it.  
Please note that "doughnuts" are not allowed**

Many thanks for your support and we look forward to seeing you again soon
